

DATA WALK Spółka Akcyjna

A statement on the company's compliance with the corporate governance principles contained in Best Practice for GPW Listed Companies 2021

According to the current status of compliance with the Best Practice, the Company does not apply 14 detailed principles: 1.3.1., 1.3.2., 1.4.1., 1.4.2., 1.6., 2.1., 2.9., 2.11.6., 3.3., 3.6., 3.10., 4.1., 4.3., 6.3.

1. DISCLOSURE POLICY, INVESTOR COMMUNICATIONS

In the interest of all market participants and their own interest, listed companies ensure quality investor communications and pursue a transparent and fair disclosure policy.

- 1.1. Companies maintain efficient communications with capital market participants and provide fair information about matters that concern them. For that purpose, companies use diverse tools and forms of communication, including in particular the corporate website where they publish all information relevant for investors.
The principle is applied.
- 1.2. Companies make available their financial results compiled in periodic reports as soon as possible after the end of each reporting period; should that not be feasible for substantial reasons, companies publish at least preliminary financial estimates as soon as possible.
The principle is applied.
- 1.3. Companies integrate ESG factors in their business strategy, including in particular:
 - 1.3.1. environmental factors, including measures and risks relating to climate change and sustainable development;
The principle is not applied.
Comments of the Company: *The current strategy of the Company was developed in the initial phase of development of the Issuer's organization. It was adapted to the then applicable regulatory conditions and the stage of the Company's development. In the business area, it remains relevant, and its subsequent stages are implemented. Other issues specified in this principle, such as issues related to working conditions and respect for employee rights, are regulated in separate internal documents. The Issuer intends to take steps to prepare activities aimed at the implementation of the factors indicated in this principle, when the current strategic goals included in the strategy are achieved.*
 - 1.3.2. social and employee factors, including among others actions taken and planned to ensure equal treatment of women and men, decent working conditions, respect for employees' rights, dialogue with local communities, customer relations.
The principle is not applied.
Comments of the Company: *The current strategy of the Company was developed in the initial phase of development of the Issuer's organization. It was adapted to the then applicable regulatory conditions and the stage of the Company's development. In the business area, it remains relevant, and its subsequent stages are implemented. Other issues specified in this principle, such as issues related to working conditions and respect for employee rights, are regulated in separate internal documents. The Issuer intends to take steps to prepare activities aimed at the implementation of the factors indicated in this principle, when the current strategic goals included in the strategy are achieved.*
- 1.4. To ensure quality communications with stakeholders, as a part of the business strategy, companies publish on their website information concerning the framework of the strategy, measurable goals, including in particular long-term goals, planned activities and their status, defined by measures, both financial and non-financial. ESG information concerning the strategy should among others:
The principle is applied.
Comments of the Company: *The principle is applied in part. The company publishes on its website information on the assumptions of the implemented strategy, its goals and progress in its implementation. They are based on measurable data, in particular in terms of acquired clients and selected financial information. As at the date of publication of this report, due to the lack of the Company's ESG strategy, non-financial measures of the strategy implementation are not disclosed.*
 - 1.4.1. explain how the decision-making processes of the company and its group members integrate climate change, including the resulting risks;
The principle is not applied.

Comments of the Company: In line with the justification to principle 1.3. ESG factors, including those related to climate change, were not taken into account in the current business strategy. However, it should be emphasized that the Group provides virtual goods, therefore its impact on the natural environment is limited. However, the management and staff of the Company make every effort to ensure that pro-ecological solutions are used in the administrative area of the Company's activity.

- 1.4.2. present the equal pay index for employees, defined as the percentage difference between the average monthly pay (including bonuses, awards and other benefits) of women and men in the last year, and present information about actions taken to eliminate any pay gaps, including a presentation of related risks and the time horizon of the equality target.

The principle is not applied.

Comments of the Company: The differentiation of salaries in the Issuer's organization results from the specificity and type of positions held and the general dynamics of wage in particular specializations. Keeping in mind that the employment structure in positions, e.g. in the IT or administration area, indicates the advantage of employment of persons of a specific gender, the publication of a cross-sectional index for the entire enterprise, in accordance with the above principle, would be unreliable and misleading. Despite the lack of presentation of the above-mentioned index the Company would like to emphasize that it follows the principle of equal pay for men and women employed in identical positions, and gender issues are not a factor affecting the terms and conditions of employment in the Company.

- 1.5. Companies disclose at least on an annual basis the amounts expensed by the company and its group in support of culture, sports, charities, the media, social organisations, trade unions, etc. If the company or its group pay such expenses in the reporting year, the disclosure presents a list of such expenses.

The principle is applied.

- 1.6. Companies participating in the WIG20, mWIG40 or sWIG80 index hold on a quarterly basis and other companies hold at least on an annual basis a meeting with investors to which they invite in particular shareholders, analysts, industry experts and the media. At such meetings, the management board of the company presents and comments on the strategy and its implementation, the financial results of the company and its group, and the key events impacting the business of the company and its group, their results and outlook. At such meetings, the management board of the company publicly provides answers and explanations to questions raised.

The principle is not applied.

Comments of the Company: Several times a year, the Company organizes meetings for investors, inviting, in particular, shareholders, analysts and media representatives. The Company realizes open meetings for individual and institutional investors, including as part of dedicated conferences organized by brokerage houses. Their frequency so far could be lower in selected periods than indicated in the above principle, but in the opinion of the Company it corresponded to the reported needs. The Issuer will take steps to increase the number of meetings in accordance with the assumptions of the principle.

- 1.7. If an investor requests any information about a company, the company replies immediately and in any case no later than within 14 days.

The principle is applied.

2. MANAGEMENT BOARD, SUPERVISORY BOARD

To ensure top standards of the responsibilities and effective performance of the management board and the supervisory board of a company, only persons with the adequate competences, skills and experience are appointed to the management board and the supervisory board.

Management Board members act in the interest of the company and are responsible for its activity. The management board is responsible among others for the company's leadership, engagement in setting and implementing its strategic objectives, and ensuring the company's efficiency and safety.

Supervisory board members acting in their function and to the extent of their responsibilities on the supervisory board follow their independent opinion and judgement, including in decision making, and act in the interest of the company.

The supervisory board functions in the spirit of debate and analyses the position of the company in the context of the sector and the market on the basis of information provided by the management board of the company and via the company's internal systems and functions and obtained from external sources, using the output of its committees. The supervisory board in particular issues opinions on the company's strategy, verifies the work of the management board in pursuit of defined strategic objectives, and monitors the company's performance.

- 2.1. Companies should have in place a diversity policy applicable to the management board and the supervisory board, approved by the supervisory board and the general meeting, respectively. The diversity policy defines diversity goals and criteria, among others including gender, education, expertise, age, professional experience, and specifies the

target dates and the monitoring systems for such goals. With regard to gender diversity of corporate bodies, the participation of the minority group in each body should be at least 30%.

The principle is not applied.

Comments of the Company: *The Company expresses its full approval for the principles of diversity, however, it does not have a formal diversity policy with regard to the Executive Board and Supervisory Board, taking into account the parity criteria indicated in the principle. Decisions regarding the election of members of the Company's bodies are made by shareholders at the General Meeting and the Supervisory Board. The criteria used in the first place in the selection of members of the Company's bodies are the knowledge, experience and skills of the candidates. As part of the diversity principles promoted by the Issuer, it is necessary to emphasize meritocracy system, transparent recruitment criteria taking into account the principle of equal opportunities for all interested persons, equal access to promotions and trainings.*

- 2.2. Decisions to elect members of the management board or the supervisory board of companies should ensure that the composition of those bodies is diverse by appointing persons ensuring diversity, among others in order to achieve the target minimum participation of the minority group of at least 30% according to the goals of the established diversity policy referred to in principle 2.1.

The principle is applied.

Comments of the Company: *The rule is not addressed directly to the Executive Board of the Company, but to the bodies electing members to the Management Board or Supervisory Board. Decision-making bodies may be guided by the premises recommended in the indicated principle. As indicated in the justification to principle 2.1, the Company does not have a formal diversity policy with regard to members of the Issuer's bodies.*

- 2.3. At least two members of the supervisory board meet the criteria of being independent referred to in the Act of 11 May 2017 on Auditors, Audit Firms and Public Supervision, and have no actual and material relations with any shareholder who holds at least 5% of the total vote in the company.

The principle is applied.

- 2.4. The supervisory board and the management board vote in an open ballot unless otherwise required by law.

The principle is applied.

- 2.5. Members of the supervisory board and members of the management board who vote against a resolution may have their dissenting vote recorded in the minutes.

The principle is applied.

- 2.6. Functions on the management board of a company are the main area of the professional activity of management board members. Management board members should not engage in additional professional activities if the time devoted to such activities prevents their proper performance in the company.

The principle is applied.

- 2.7. A company's management board members may sit on corporate bodies of companies other than members of its group subject to the approval of the supervisory board.

The principle is applied.

- 2.8. Supervisory board members should be able to devote the time necessary to perform their duties.

The principle is applied.

- 2.9. The chair of the supervisory board should not combine this function with that of chair of the audit committee of the supervisory board.

The principle is not applied.

Comments of the Company: *Past experience shows that at the current stage of development of the Issuer's organization and taking into account its size, combining the function of the Chairman of the Supervisory Board with the chairmanship of the Audit Committee helps to fulfill the obligations provided by law, without affecting the substantive aspect of the undertaken activities.*

- 2.10. Companies allocate administrative and financial resources necessary to ensure efficient functioning of the supervisory board in a manner adequate to their size and financial standing.

The principle is applied.

- 2.11. In addition to its responsibilities laid down in the legislation, the supervisory board prepares and presents an annual report to the annual general meeting once per year. Such report includes at least the following:

2.11.1. information about the members of the supervisory board and its committees, including indication of those supervisory board members who fulfil the criteria of being independent referred to in the Act of 11 May 2017 on Auditors, Audit Firms and Public Supervision and those supervisory board members who have no actual and material relations with any shareholder who holds at least 5% of the total vote in the company, and information about the members of the supervisory board in the context of diversity;

The principle is applied.

2.11.2. summary of the activity of the supervisory board and its committees;

The principle is applied.

2.11.3. assessment of the company's standing on a consolidated basis, including assessment of the internal control, risk management and compliance systems and the internal audit function, and information about measures taken by the supervisory board to perform such assessment; such assessment should cover all significant controls, in particular reporting and operational controls;

The principle is applied.

2.11.4. assessment of the company's compliance with the corporate governance principles and the manner of compliance with the disclosure obligations concerning compliance with the corporate governance principles defined in the Exchange Rules and the regulations on current and periodic reports published by issuers of securities, and information about measures taken by the supervisory board to perform

such assessment;
The principle is applied.

- 2.11.5. assessment of the rationality of expenses referred to in principle 1.5;
The principle is applied.
- 2.11.6. information regarding the degree of implementation of the diversity policy applicable to the management board and the supervisory board, including the achievement of goals referred to in principle 2.1.
The principle is not applied.
Comments of the Company: *Due to the non-application of principle 2.1. and the lack of a diversity policy adopted in the Company, the annual report on the activities of the Supervisory Board will not contain reference to the above-mentioned issues.*

3. INTERNAL SYSTEMS AND FUNCTIONS

Efficient internal systems and functions are an indispensable tool of exercising supervision over a company.

The systems cover the company and all areas of activity of its group which have a significant impact on the position of the company.

- 3.1. Listed companies maintain efficient internal control, risk management and compliance systems and an efficient internal audit function adequate to the size of the company and the type and scale of its activity; the management board is responsible for their functioning.
The principle is applied.
- 3.2. Companies' organisation includes units responsible for the tasks of individual systems and functions unless it is not reasonable due to the size of the company or the type of its activity.
The principle not applicable.
Comments of the Company: *Due to the size of the Company and the type its activity, there are no separate units responsible for the internal control system, risk management, compliance and the internal audit function. The above-mentioned systems or functions are performed within each of the organizational divisions, and the legal services are in particular responsible for the compliance of the Company's operations with the law.*
- 3.3. Companies participating in the WIG20, mWIG40 or sWIG80 index appoint an internal auditor to head the internal audit function in compliance with generally accepted international standards for the professional practice of internal auditing. In other companies which do not appoint an internal auditor who meets such requirements, the audit committee (or the supervisory board if it performs the functions of the audit committee) assesses on an annual basis whether such person should be appointed.
The principle is not applied.
Comments of the Company: *Due to the size of the Company and the type of its activity, no internal auditor was appointed. Internal control functions are performed by each of the organizational divisions. The functioning and effectiveness of internal control is supervised by the Supervisory Board and the Audit Committee.*
- 3.4. The remuneration of persons responsible for risk and compliance management and of the head of internal audit should depend on the performance of delegated tasks rather than short-term results of the company.
The principle is applied.
- 3.5. Persons responsible for risk and compliance management report directly to the president or other member of the management board.
The principle is applied.
- 3.6. The head of internal audit reports organisationally to the president of the management board and functionally to the chair of the audit committee or the chair of the supervisory board if the supervisory board performs the functions of the audit committee.
The principle is not applied.
Comments of the Company: *Due to the lack of an internal auditor, the application of the above principle will not be possible.*
- 3.7. Principles 3.4 to 3.6 apply also to members of the company's group which are material to its activity if they appoint persons to perform such tasks.
The principle is applied.
- 3.8. The person responsible for internal audit or the management board if such function is not performed separately in the company reports to the supervisory board at least once per year with their assessment of the efficiency of the systems and functions referred to in principle 3.1 and tables a relevant report.
The principle is applied.
- 3.9. The supervisory board monitors the efficiency of the systems and functions referred to in principle 3.1 among others on the basis of reports provided periodically by the persons responsible for the functions and the company's management board, and makes annual assessment of the efficiency of such systems and functions according to

principle 2.11.3. Where the company has an audit committee, the audit committee monitors the efficiency of the systems and functions referred to in principle 3.1, which however does not release the supervisory board from the annual assessment of the efficiency of such systems and functions.

The principle is applied.

- 3.10.** Companies participating in the WIG20, mWIG40 or sWIG80 index have the internal audit function reviewed at least once every five years by an independent auditor appointed with the participation of the audit committee.

The principle is not applied.

Comments of the Company: *The Supervisory Board of the Company, including the Audit Committee, monitors the effectiveness of the internal control system and the risk management system, including financial reporting and operating activities, based on information periodically provided directly by persons responsible for organizational units and the Executive Board of the Company. The Supervisory Board, including members of the Audit Committee, have a direct opportunity to obtain relevant explanations from persons responsible for risk management and control in the Company, which contributes to ensuring effective monitoring of the control and risk management systems. On this basis, the Supervisory Board performs an annual assessment of the internal control, risk management and compliance systems as well as the internal audit function. Due to the size of the Company and the type of its activity, in the opinion of the Company, the assessment of the internal audit function in the above scope is sufficient.*

4. GENERAL MEETING, SHAREHOLDER RELATIONS

The management board and the supervisory board of listed companies should encourage the engagement of shareholders in matters of the company, in particular through active participation in the general meeting, either in person or through a proxy.

The general meeting should proceed by respecting the rights of all shareholders and ensuring that passed resolutions do not infringe on legitimate interests of different groups of shareholders.

Shareholders who participate in a general meeting exercise their rights in accordance with the rules of good conduct. Participants of a general meeting should come prepared to the general meeting.

- 4.1.** Companies should enable their shareholders to participate in a general meeting by means of electronic communication (e-meeting) if justified by the expectations of shareholders notified to the company, provided that the company is in a position to provide the technical infrastructure necessary for such general meeting to proceed.

The principle is not applied.

Comments of the Company: *The Company does not plan to conduct a General Meeting with electronic communication means. The Company's experience regarding the organization and course of General Meetings does not indicate the need to provide such solutions. In case of significant interest of the Company's shareholders related to the need to organize an e-meeting, the Company will consider such a possibility.*

- 4.2.** Companies set the place and date and the form of a general meeting so as to enable the participation of the highest possible number of shareholders. For that purpose, companies strive to ensure that the cancellation of a general meeting, change of its date or break in its proceedings take place only if justified and do not prevent or limit the exercising of the shareholders' rights to participate in the general meeting.

The principle is applied.

- 4.3.** Companies provide a public real-life broadcast of the general meeting.

The principle is not applied.

Comments of the Company: *The Company does not plan to real-live broadcasting of the General Meeting. The Company's experience regarding the organization and course of General Meetings does not indicate the need to provide such solutions. In case of significant interest of the Company's shareholders in broadcasting the meeting, the Company will consider such a possibility.*

- 4.4.** Presence of representatives of the media is allowed at general meetings.

The principle is applied.

- 4.5.** If the management board becomes aware a general meeting being convened pursuant to Article 399 § 2 - 4 of the Commercial Companies Code, the management board immediately takes steps which it is required to take in order to organise and conduct the general meeting. The foregoing applies also where a general meeting is convened under authority granted by the registration court according to Article 400 § 3 of the Commercial Companies Code.

The principle is applied.

- 4.6.** To help shareholders participating in a general meeting to vote on resolutions with adequate understanding, draft resolutions of the general meeting concerning matters and decisions other than points of order should contain a justification, unless it follows from documentation tabled to the general meeting. If a matter is put on the agenda of the general meeting at the request of a shareholder or shareholders, the management board requests presentation of the justification of the proposed resolution, unless previously presented by such shareholder or shareholders.

The principle is applied.

- 4.7. The supervisory board issues opinions on draft resolutions put by the management board on the agenda of the general meeting.
The principle is applied.
- 4.8. Draft resolutions of the general meeting on matters put on the agenda of the general meeting should be tabled by shareholders no later than three days before the general meeting.
The principle is applied.
- 4.9. If the general meeting is to appoint members of the supervisory board or members of the supervisory board for a new term of office:
- 4.9.1. candidates for members of the supervisory board should be nominated with a notice necessary for shareholders present at the general meeting to make an informed decision and in any case no later than three days before the general meeting; the names of candidates and all related documents should be immediately published on the company's website;
The principle is applied.
- 4.9.2. candidates for members of the supervisory board make a declaration concerning fulfilment of the requirements for members of the audit committee referred to in the Act of 11 May 2017 on Auditors, Audit Firms and Public Supervision and having actual and material relations with any shareholder who holds at least 5% of the total vote in the company.
The principle is applied.
- 4.10. Any exercise of the rights of shareholders or the way in which they exercise their rights must not hinder the proper functioning of the governing bodies of the company.
The principle is applied.
- 4.11. Members of the management board and members of the supervisory board participate in a general meeting, at the location of the meeting or via means of bilateral real-time electronic communication, as necessary to speak on matters discussed by the general meeting and answer questions asked at the general meeting. The management board presents to participants of an annual general meeting the financial results of the company and other relevant information, including non-financial information, contained in the financial statements to be approved by the general meeting. The management board presents key events of the last financial year, compares presented data with previous years, and presents the degree of implementation of the plans for the last year.
The principle is applied.
- 4.12. Resolutions of the general meeting concerning an issue of shares with subscription rights should specify the issue price or the mechanism of setting the price or authorise the competent body to set the price prior to the subscription right record date within a timeframe necessary for investors to make decisions.
The principle is applied.
- 4.13. Resolutions concerning a new issue of shares with the exclusion of subscription rights which grant pre-emptive rights for new issue shares to selected shareholders or other entities may pass subject at least to the following three criteria:
- a) the company has a rational, economically justified need to urgently raise capital or the share issue is related to rational, economically justified transactions, among others such as a merger with or the take-over of another company, or the shares are to be taken up under an incentive scheme established by the company;
 - b) the persons granted the pre-emptive right are to be selected according to objective general criteria;
 - c) the purchase price of the shares is in a rational relation with the current share price of the company or is to be determined in book-building on the market.
- The principle is applied.*
- 4.14. Companies should strive to distribute their profits by paying out dividends. Companies may retain all their earnings subject to any of the following criteria:
- a) the earnings are minimal and consequently the dividend would be immaterial in relation to the value of the shares;
 - b) the company reports uncovered losses from previous years and the earnings are used to reduce such losses;
 - c) the company can demonstrate that investment of the earnings will generate tangible benefits for the shareholders;
 - d) the company generates insufficient cash flows to pay out dividends;
 - e) a dividend payment would substantially increase the risk to covenants under the company's binding credit facilities or terms of bond issue;
 - f) retention of the company's earnings follows recommendations of the authority which supervises the company by virtue of its business activity.
- The principle is applied.*

5. CONFLICT OF INTEREST, RELATED PARTY TRANSACTIONS

For the purpose of this section, 'related party' is defined within the meaning of the International Accounting Standards approved in Regulation No (EU) 1606/2002 of the European Parliament and of the Council of 19 July 2002 on the application of international accounting standards.

Companies and their groups should have in place transparent procedures for managing conflicts of interest and for related party transactions where a conflict of interest may occur. The procedures should provide for ways to identify and disclose such cases and the course of action in the event that they occur.

Members of the management board and members of the supervisory board should refrain from professional or other activities which might cause a conflict of interest or adversely affect their reputation as members of the corporate body, and where a conflict of interest arises, they should immediately disclose it.

- 5.1. Members of the management board and members of the supervisory board notify the management board or the supervisory board, respectively, of any conflict of interest which has arisen or may arise, and refrain from discussions on the issue which may give rise to such a conflict of interest in their case.
The principle is applied.
- 5.2. Where a member of the management board or a member of the supervisory board concludes that a decision of the management board or the supervisory board, respectively, is in conflict with the interest of the company, he or she should request that the minutes of the management board or supervisory board meeting show his or her dissenting opinion.
The principle is applied.
- 5.3. No shareholder should have preference over other shareholders in related party transactions. The foregoing also concerns transactions concluded by the company's shareholders with members of the company's group.
The principle is applied.
- 5.4. Companies may buy back their own shares only in a procedure which respects the rights of all shareholders.
The principle is applied.
- 5.5. If a transaction concluded by a company with its related party requires the consent of the supervisory board, before giving its consent the supervisory board assesses whether to ask a prior opinion of a third party which can provide valuation of the transaction and review its economic impact.
The principle is applied.
- 5.6. If a related party transaction requires the consent of the general meeting, the supervisory board issues an opinion on the rationale of such transaction. In that case, the supervisory board assesses whether to ask a prior opinion of a third party referred to in principle 5.5.
The principle is applied.
- 5.7. If a decision concerning the company's significant transaction with a related party is made by the general meeting, the company should give all shareholders access to information necessary to assess the impact of the transaction on the interest of the company before the decision is made, including an opinion of the supervisory board referred to in principle 5.6.
The principle is applied.

6. REMUNERATION

Companies and their groups protect the stability of their management teams, among others by transparent, fair, consistent and non-discriminatory terms of remuneration, including equal pay for women and men.

Companies' remuneration policy for members of corporate bodies and key managers should in particular determine the form, structure, and method of determining and payment of the remuneration.

- 6.1. The remuneration of members of the management board and members of the supervisory board and key managers should be sufficient to attract, retain and motivate persons with skills necessary for proper management and supervision of the company. The level of remuneration should be adequate to the tasks and responsibilities delegated to individuals and their resulting accountability.
The principle is applied.
- 6.2. Incentive schemes should be constructed in a way necessary among others to tie the level of remuneration of members of the company's management board and key managers to the actual long-term standing of the company measured by its financial and non-financial results as well as long-term shareholder value creation, sustainable development and the company's stability.
The principle is applied.
Comments of the Company: *The above principle will only be applied in part. The incentive program adopted by Resolution No. 19 of the Annual General Meeting of June 30, 2020 is primarily aimed at linking the long-term value of the Company and its capital group with the long-term goals of the key personnel, while ensuring analogous rules for participation in the program for members of the Company's staff and its US-based subsidiary. In view of the above, as well as due to the sector of activity of the Issuer's Group, which operates in the virtual goods sector, the criteria for non-financial results and sustainable development were*

not included in it. Moreover, as indicated in the justification to principle 1.3. the current strategy of the Company does not include the above-mentioned criteria.

- 6.3.** If companies' incentive schemes include a stock option programme for managers, the implementation of the stock option programme should depend on the beneficiaries' achievement, over a period of at least three years, of pre-defined, realistic financial and non-financial targets and sustainable development goals adequate to the company, and the share price or option exercise price for the beneficiaries cannot differ from the value of the shares at the time when such programme was approved.

The principle is not applied.

Comments of the Company: *The incentive program adopted by Resolution No. 19 of the Annual General Meeting of the Company of June 30, 2020 provides for different conditions of implementation than those specified in the above principle. The right to receive derivative financial instruments entitling to receive payment of a certain amount of money will depend on the fulfillment of the goals set for individual authorized persons and the occurrence of events specified by a resolution of the General Meeting, the date of occurrence of which is impossible to determine both at the time of adopting the terms of the incentive program and on the date of accession to it by a member of the Company's staff. Settlement of the rights granted to authorized persons will be carried out in the manner described in the above-mentioned resolution of the AGM. In the opinion of the Executive Board of the Issuer, the conditions adopted in the program best correspond to the specificity of the organization while ensuring appropriate mechanisms to attract members of the key personnel in the Company and its subsidiary by creating additional incentives to care for the long-term and dynamic growth of the Company's value, while at the same time bringing their interests as close as possible to the interests of shareholders, especially those investing in the Company in the long term.*

- 6.4.** As the supervisory board performs its responsibilities on a continuous basis, the remuneration of supervisory board members cannot depend on the number of meetings held. The remuneration of members of committees, in particular the audit committee, should take into account additional workload on the committee.

The principle is applied.

- 6.5.** The level of remuneration of supervisory board members should not depend on the company's short-term results.

The principle is applied.
